

Albert Sigfrido Alcántara Ynoa

Santo Domingo, Dominican Republic • [linkedin.com/in/albert-alcántara](https://www.linkedin.com/in/albert-alcántara) • asay22@outlook.com

Computer Systems Engineer with over 7 years of experience developing web applications and integrating enterprise systems for the financial sector. Specialized in .NET, React, and enterprise integrations. Co-founder of two SaaS products (QRMoon and NexoMed) and an AWS Certified Cloud Practitioner.

EXPERIENCIA PROFESIONAL

Banco Santa Cruz

Santo Domingo, Dominican Republic

Senior Software Engineering Analyst

2024 – Present

- Led the migration of standard loans and full loan payoff processes, reducing operational complexity within the bank's lending workflow.
- Developed payment products with graphical user interfaces integrated with internal banking services.
- Built functionality for fixed-term deposits, integrating business workflows with existing enterprise systems.
- Designed and integrated mission-critical solutions using IBM ACE, React, Next.js, Vue, Nuxt, TypeScript, and SQL Server.

QRMoon S.R.L.

Santo Domingo, Dominican Republic

Co-Founder · Full Stack Developer

2021 – Present

- Developed a full-stack SaaS platform for digital business cards featuring QR codes, analytics, referrals, subscriptions, and an administration dashboard.
- Implemented a vCard editor, dynamic QR code generation, OAuth authentication flows, Google Maps integration, and image cropping.
- Built RESTful APIs with .NET and PostgreSQL, deployed on AWS with Amazon S3 storage and security best practices.
- Designed bilingual (English/Spanish) user experiences and an analytics dashboard to track profile views, QR scans, and user interactions.

GCS International

Santo Domingo, Dominican Republic

.NET Developer

2020 – 2024

- Built a security portal, due diligence portal, and compliance workflows for enterprise operations.
- Implemented personalized bulk SMS messaging and integrations with billing systems.
- Developed enterprise solutions using .NET, Java, JavaScript, SQL Server, and Docker.

GCS International

Santo Domingo, Dominican Republic

Systems Analyst

2019 – 2020

- Developed customer portals for membership inquiries, number portability, and financial transaction reporting.
- Built router exchange portals and billing management tools for QA operations.
- Integrated solutions using PHP, JavaScript, jQuery, HTML, CSS, and MySQL.
